Hi, I'm Athena!

From keynotes to workshops, emceeing to facilitating expert panels, I've been speaking to groups, large and small, for over 30 years. My passion is to see believers come to a place of understanding & walking in the undeniable faithfulness of God, no matter how difficult our circumstances might be. My background of coming out of the deception involved in a spiritually abusive church environment, combined with my years of ministry to wives of Vietnam veterans and other trauma survivors who've suffered with Post Traumatic Stress Disorder, gives me a unique perspective. My own struggles and quest to heal in an authentic way has equipped me with an enormous capacity for compassion and empathy, along with scriptural answers to the struggles we face when we've been hurt by others.

“Full Circle is a story of one woman’s struggle to understand her incomparable worth in Christ. Through rejection, rebellion, and fear until she found herself in the clutches of a cult author Athena Dean experienced true redemption, freedom and renewal as she surrendered to Jesus. An important story for anyone who has wandered lost, longing to be found.”
